TL 295-6

# **CONGRATULATION VOTE** n.150/V

On the 28th, 29th, 30th of April and 1st May, took place The 2nd Conference at Porto University about East Timor, organised by the University's Rectory, in which participated representatives of the Parliamentary Committee for the Follow-up of the situation in East Timor, groups of solidarity with the East-Timorese People and other religious, political and cultural personalities from abroad, namely from the USA, Great-Britan and Australia, and also the New York retired Anglican Bishop, Paul Moore, and a staff member of the Ministry for Foreign Affairs.

During the Conference a wide reflection upon that serious problem was made, standing out the statements produced about the reiterated violation of Human Rigths of the East Timorese People made by the invading power.

The Parliament greets the realization of The 2nd Conference on East Timor and congratulates itself for the success of this initiative. The Parliament reafirms its availability to develop every effort, in its power, in order to contribute for the constitutional objective of self determination and independence for East Timor.

Parliament, the 2nd May 1990
